RE: COLLECTION OF RACE AND ETHNICITY DATA

PROGRAM AFFECTED: ALL PROGRAMS

ORIGINATING OFFICE: OFFICE OF PROGRAMS

SUMMARY:

In October 1997, the federal Office of Management and Budget issued a notice - Revision to the Standards for the Classification of Federal Data on Race and Ethnicity. CARES was recently changed to reflect these federal requirements for collecting information about race and ethnicity. This action transmittal is to inform you of the changes in CARES for collecting information about the race and ethnicity of applicants and recipients.

These changes are in no way meant to single people out based on race or ethnicity.

Note: Prior to this change, the collection of racial and ethnic data was by single race category, only. With the new format customers can choose more than one race.

Beginning March 1, 2008, CARES began to collect this data for all programs under a new two-question format for all new applications and re-certifications.

The first racial/ethnic question asks customers for their ethnicity. The second question asks for their race. Case managers must allow customers to identify themselves as being of more than one race by choosing multiple racial categories.
The customer can select:

- **One of two** ethnic categories:
  - Hispanic or Latino
  - Not Hispanic or Latino

- **One or more** of the following race categories:
  - American Indian or Alaska Native
  - Asian
  - Black or African American
  - Native Hawaiian or Other Pacific Islander
  - White

See the attachment 2 for definitions of the categories.

**ACTION REQUIRED:**

Case managers must continue to tell customers that:
- This information is voluntary
- It will not affect eligibility or benefit levels, and
- The reason for the information is to assure that program benefits are distributed without regard to race, color, or national origin.

Case managers must give applicants and recipients the opportunity to self-identify their race and ethnicity. However, if the applicant or recipient chooses not to self-identify, the caseworker is to record ethnicity and one race based on observation.

If the applicant or recipient does not provide the information and if the caseworker is unable to observe the applicant’s race and ethnicity (for example during a telephone interview), leave the race and ethnicity fields in CARES blank.

**CARES PROCEDURES:**

Effective February 25, 2008 the following changes were made to the CARES DEM1 screen (See attachment 1 below):
- Client Ethnicity Field was added
- The existing Race field was changed to: “CIS Primary Race”
- Five new race codes were added
- New verification valid values were added to both race and ethnicity fields

The Race and Ethnicity Verification field is a required field for all members of a CARES Assistance Unit with a financial responsibility code other than “NM”, including current recipients. This field can be entered during any edit or update CARES function (i.e., interview, process application months, interim change, historical case change, and redetermination).
Client Ethnicity
The codes for this field are:
- H – Hispanic or Latino
- N – Not Hispanic or Latino

Race
The customer can select **up to five** of the following race codes. The selections are:
- A – Asian
- B – Black or African American
- C – White
- N – American Indian or Alaska Native
- P – Native Hawaiian or other Pacific Islander

Verification Valid Values
The case manager can enter one of the following valid values into the verification field following the race and ethnicity code fields:
- S – Self-disclosed. Race is stated by customer in face-to-face interview
- O – Observed. Race is observed by caseworker in face-to-face interview and customer declines to state race.
- M – Mail-in or telephone interview. The ethnicity and race code fields default to “blank” when M is entered. Blank ethnicity and race fields are not accepted unless the verification code is M.

Error Messages
Case managers cannot exit the **DEM1** screen if values are missing or incorrect during the Interview, Process Application Months, Interim Change, Historical Case Change, and Redetermination process.
